

Adjustable feet 01

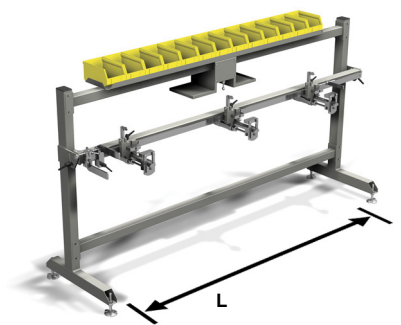

Hardware containers 02

## Assembler

Bench for the assembly of hinges and gaskets

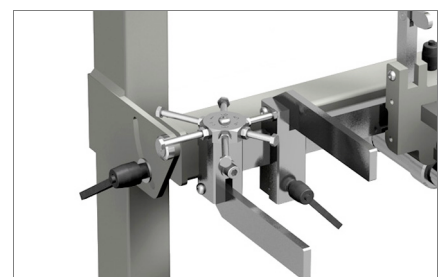

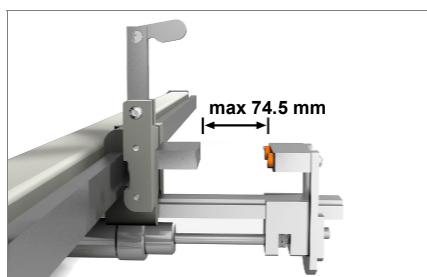

A correct flow of materials, whether semi-finished or finished products, or parts in the assembly phase, plays an important role in rationalizing and optimizing the production cycle. The Emmegi Logistics line offers companies a concrete solution to all storage, handling and assembly problems. Assembler is a bench with three air-operated vices for the preassembly of hinges and gaskets.

Pneumatic system 03

Pneumatic clamps 04

Programmable stops 05

# Assembler

Bench for the assembly of hinges and gaskets

## 01 Adjustable feet

Height-adjustable feet ensure that the work table can be set at the desired height, perfectly flush with the other products in the Dynamic Line. They also have holes for anchoring them to the floor.

## 02 Hardware containers

These units provide a set of handy boxes for arranging small parts of hardware simply and tidily so that all items can be readily found.

## 03 Pneumatic system

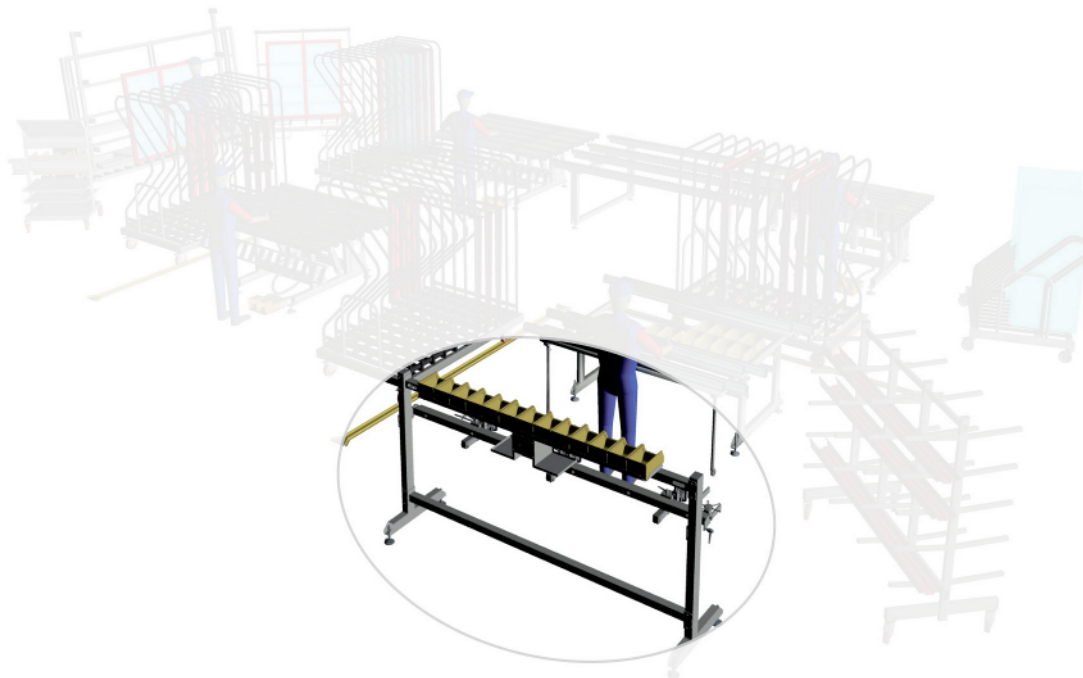

Quick-connect couplings ensure easy control of the compressed air supply.

## 04 Pneumatic clamps

A set of horizontally-adjustable pneumatic clamps grip the profile securely.

## 05 Programmable stops

6 programmable stops enable the bench to adapt perfectly to the various types of profile.

### TECHNICAL CHARACTERISTICS

Stop for predetermining position of the central hinge	1
Stops for predetermining position of the upper and lower hinges	
Programmable stops for mounting the hinges on 6 types of profile	
Max. centre distance between upper and lower hinge (mm)	2200
Rubber-coated shelves for resting tools	2
Accessory shelf complete with 13 hardware containers	
Adjustable work table tilting	15° + 45°
Adjustable work table height (mm)	880 + 980
Pneumatic clamps with anti-slip pads and PVC contact surfaces	3
Pneumatic system with 2 quick-connect couplings and 1 Rilsan spiral hose
