Manual assembly benches

Image not found or type unknown

The bench is suitable for accessories and gaskets assembly. It can rotate on a central fulcrum and can be adjustable in length, thus allowing the frame rotation.

**Height-extendible support surface**

The ability to extend and lengthen in height allows perfect adaptation to a variety of frame types.

**Swivel work bench**

The work surface swivels on a central fulcrum and can be extended in length, allowing the frame to be rotated.

**Surface in nonslip PVC**

The work surfaces are covered with non-slip PVC rubber that provides secure support when positioning the frame.

**Adjustable feet**

Height adjustable feet to ensure the work bench can be positioned at the required height and perfectly flush with the other products in the Dynamic Line. The feet also have holes so they can be anchored to the floor.
