

FP PRO "ENTERPRISE" - TERMINAL SERVER

EMMEGISOFT OFFICE
CALCULATION SOFTWARE

FP PRO:

FP PRO is the main FP SUITE program since it includes the basic functions used by all door/window makers: door/window design, job definition and calculation, analytical estimate, purchasing management, generation of workshop work lists, heat transmission calculation, CE mark management. It comes in 5 versions and is suitable for companies of any size. It is easy to use and employs a userfriendly graphical interface displaying real profiles, multi-joints, sections, 3D styles. It can operate in a network where files are shared over an SQL database.

"ENTERPRISE" version:

The version for complete management of production, including the assembly phases. In addition to all the windows and doors functions and the control of Cutting-off machines and Machining Centres, it includes multi-machine management, trolley management, control of PVC Machining centres and Corner Cleaning/Welding machines, control of automatic workbenches for hardware screwing.

"ENTERPRISE" - TERMINAL SERVER version:

The version for Terminal Server (in which both software and data are installed only on the server) has the advantage of an easy maintenance, an increased operating speed and a flexible use, also from remote locations via the Internet, under the condition of not exceeding the maximum number of allowed concurrent users.
