

M-S 300

Single head cutting-off
machines

Single-head, rising blade cutting-off machine designed for cuts at 90°, 45° left and right and intermediate angles.

**Cutting zone**

The sturdy cast-iron horizontal support surface, with its vertical square rigidly coupled to it, forms the workpiece clamping area, which features a large bearing area for optimum clamping of workpieces.

**Blade**

The cutting-off machine is equipped with a 300-mm cemented carbide blade mounted on a manually actuated feed system.

**Vices**

The machine is equipped with a horizontal and vertical vice assembly, which are pneumatically actuated in the S version, and manually actuated in the M version.
