### Roller conveyor

A roller conveyor at the base, with adjustable height from 320 to 360 mm from the ground, supports the weight of the door and ensures smoothness and ease of handling.

### Bench with anti-scratch rollers

Five rows of stem-mounted needle rollers form the support of the door against the inclined backrest and allow even very heavy doors to be moved safely.

### Adjustable feet

The height-adjustable feet ensure that the desired height of the work surface is correctly achieved and allow for a variable angle from 85° to 90°. The feet also have holes so they can be anchored to the floor.

## V-LINK / MANUAL ASSEMBLY BENCHES

## CHARACTERISTICS

Roller bench height (mm)	320 ÷ 360
Adjustable roller bench tilt	85° ÷ 90°
Weight (kg)	100
Load capacity (kg)	200
Length (mm)	3.000
Height (mm)	2.165 ÷ 3.015
Width (mm)	870
Soft nonslip PVC contact surface	●
