**Clamping system** 

A retractable vice system under the work bench enables centred clamping of the frame.

## Work bench pneumatic tilting

By means of pneumatic footswitch, it is possible to place the bench in an inclined position from 0° (horizontal) to 12° to facilitate hardware assembly operations.

Automatic screwing unit

The screwing unit with automatic feed runs on horizontal guides.

## Support surface in hard anti-friction PVC

The anti-friction hard PVC support surface ensures great smoothness of the frame allowing easy handling.
