## **TECHNICAL SHEET**

14/09/2025

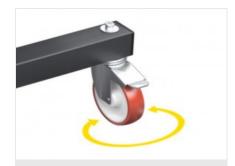

**Contact surfaces** 

All contact surfaces are coated with soft nonslip PVC, which ensures the integrity of the surfaces in the housing stages.

The adjustability of the centre supports allows extrusions of different lengths to be accommodated, facilitating their identification.

## **Pivoting wheels**

Equipped with 4 pivoting wheels with brakes, they ensure a high degree of mobility and easy handling of the object. Locking the braking units allows their position to be fixed near different work areas.
